Items discussed: By-laws. We need to find them. It was brought up that if we increased our years of truck we could get more members in the club. The by-laws have this information.

## **IF MY BODY WAS A CAR**

If my body was a car, this is the time I would be thinking about trading it in for a newer model.

I've got bumps and dents and scratches in my finish and my paint job is getting a little dull.

But that's not the worst of it. My headlights are out of focus and it's especially hard to see things up close.

My traction is not as graceful as it once was. I slip and slide and skid and bump into things even in the best of weather.

My whitewalls are stained with varicose veins. And it takes me hours to reach my maximum speed.

My fuel rate burns inefficiently. But that's not the worst of it;

Almost every time I sneeze, cough or sputter, either my radiator leaks or my exhaust backfires!

I hope to see you all at the meeting.

Keep on Truckin

Jan
